We provide our Scouts with support, and we are determined to be the foremost member service-oriented entity in the United States. However, our Scouts will sometimes need additional support. Educators have always been people that youth could reach out to and seek help from. Therefore, we identity educators who are supportive of our Scout Programs, and can help support our Scouts.

We ask a school to nominate a couple of educators our Scouts can speak to about our Scout Programs and can confide in. These educators display a sticker or badge in their classrooms, offices, or whatever they think appropriate. Our Scouts knows those who have a sticker or badge showing are people who are supportive of their efforts in the Scout Programs of Adventure Scouts USA.
