

The Scouts of the Scout Programs of Adventure Scouts USA get to choose the activities they want to explore. They can try new things and have fun in our focused small and large group practical hands-on activities that broaden their horizons. For instance: a Scout in our Scout Programs can choose to try their hand at creating a comic book, building and launching a rocket, or acquiring the skill of how to pack a back pack. Our Scouts could also try their hand at mastering a new skateboarding trick, improving their sports abilities, gaining musical appreciation by meeting musicians, or gaining the knowledge to create a movie. These are just some of the many and varied choices our Scouts can choose from and the best part is: It is always their choice.
