

We believe, when someone takes the time and effort to contact us, that the speed of our response should reflect the importance of the purpose we were contacted for. When an issue is of an urgent nature we react urgently. When an issue is brought to our attention that is not of an urgent nature, we believe there is no time like now to try and address the issue. We consider responding with a sense of urgency and immediacy a part of our purpose as a membership driven Scout Program.
