

Family relationships are the most important relationships in the lives of our Scouts. That is why we created family-oriented Scout Programs which offer our Scouts many opportunities to participate with family.

We have made parents our partners. Parents, multiple generations and extended family members always have a standing invitation to our meetings, programs, and activities. We know our members and value their participation. When partners know the Counselors who interact with their children, we can all work together for the betterment of our Scouts.
