One of the challenges we encourage our Scouts to participate in is the Catch an Egg Challenge.

Our Scouts drop an egg from a distance (one floor) and the egg lands without the egg breaking!

It sounds hard to do, but there is a secret to it that guarantees an unbroken egg. We encourage our Scouts to look into how to do accomplish and study the science behind it. Our Scouts can continue trying until they get it right. The first Scout to achieve the goal or come closest receives an award, receives a reward.
