

Scouts can play musical instruments or “air guitar.” A video camera can be set up facing a white wall. Scouts can dress up as “rockers”. Everyone participates in the FUN.

Scouts will need a writer, director, costumer, someone to play music, and someone to light the set. From young to old, everyone participates. Many sets can be arranged. For smaller teams, all Scouts may participate in the same video, while larger teams can split up to make multiple videos at once. There will be need for many different actors, from musicians to screaming fans.

A “craft services” table provides food and refreshments to actors and crew. Families are encouraged to get in on the action, as cast or crew, and even make their own family videos.
