One attribute of team bonding we encourage are team photographs.

The teams of our Scout Programs can have a team photograph taken and a photograph of the individual Scouts. These photographs enable our Scouts to appreciate they are a part of a team, and they offer something real for our Scouts to look back at in many years and remember the good times they had with their friends.

Other organizations, clubs, and activities which our Scouts take part in feature team pictures. We want our Scouts to be able to proudly remember what they are a part of, whether it's a week after the team photographs are taken or in 20 years.
